

CollaborateMD | EHR/EMR Integration Partners

CollaborateMD has developed standard and customized HL7 interfaces for various EHR Software platforms — both Preferred and Standard Partners — supporting multiple specialties nationwide. Strategic partnerships with select organizations enable seamless practice management, medical billing, and EHR software solutions for our clients.

The following EHRs integrate with CollaborateMD **at no cost** and are ideal for Behavioral Health providers:

Kipu Health

■ *Personal #1 Choice — For Clinicians & RCM Providers*

Whether you offer Detox, Residential Treatment, PHP, IOP, or OP, Kipu EMR is the choice for your facility. Built by the addiction treatment community, for the addiction treatment community — Kipu was designed specifically for the addiction and behavioral health specialist, not as a cookie-cutter product adapted from another specialty.

Kipu EMR has quickly become the gold standard for addiction treatment centers and is now the most widely used EMR in the field.

Alleva

■ *Personal 2nd Choice*

Alleva is a leading EMR for the behavioral health and addiction recovery sectors, delivering premium technology to those who care for those in need. Their team comprises licensed therapists, industry professionals, and experienced software developers — committed to helping the helpers.

Ritten

Built Around Complex Care

Ritten helps behavioral health facilities across the continuum of care drive referrals, streamline billing, and measure outcomes. It is the first EMR platform specifically modeled around the complex care required in behavioral health treatment.

The Tree

Affordable & Customizable for SUD & BH Centers

The Tree EHR offers customizable solutions designed for substance abuse and behavioral health centers, with the philosophy that every center should have access to affordable documentation tools and control over their day-to-day workflow configuration.

Praxis EMR

The Only EMR Not Based on Rigid Templates

Praxis® is built on a unique Concept Processing technology that learns the way YOU practice medicine. For every new patient encounter, it recalls elements of past encounters to consistently improve documentation quality. Founded in 1989 and serving providers across all 50 states, Praxis becomes smarter and more efficient with every use.
